

7/1988

NEWS ABOUT DUES

We are currently sending the chapter newsletter to many persons who have been members in the past but are not current with their membership dues. Part of the reason for this has been that we have not had a fixed year or time when dues should be paid. Effective with January 1989, dues will be collected and payable for the calendar year. The chapter would appreciate all who wish to continue receiving the chapter newsletter and remaining on the F.F. roster to be current with dues. Hopefully, the following information will be helpful for you to get this accomplished.

The date on your mailing address label is the last time you paid dues and your membership would expire 12 months after this date.

Dues are \$5.00 per year single; \$10.00 per year family.

Please prorate from your last payment to be current to December 1988. For example:

- 1) If you last paid (according to the mailing label) on October 1986. Your membership expired in October 1987. For a single membership you would owe from October 1987 to October 1988 @ \$5.00 and then November and December at 50¢ per month (\$1.00) for a total of \$6.00 to be current through 1988. Dues for 1989 will also be accepted now or can be paid prior to January 1989.

The form below will help you compute how you stand on this matter. The chapter really appreciates your assistance in resolving this matter. It has been a confusing issue for a long time. It is hoped the calendar year dues structure will simplify the problem.
